

About Midian Electronics

Midian Electronics was founded in 1975 by Chuck Soulliard when he introduced Pulse Tone and MTS/IMTS encoders and decoders for portable radiotelephones. In 1981 Midian Electronics developed the first voice scrambler small enough to fit inside of a two-way radio. Since then Midian has been a leader in voice security and tone signaling products for two-way radio systems.

Midian's product line has expanded to include tone remotes, interoperability, voting tone encoder, radiotelephone interconnects, paging terminals, repeater makers and Intermodulation study software.

We would like to thank you for your support over the last 36 years and look forward to working with you in the future.

Orders

To place an order please contact Midian at 1-800-MIDIANS (643-4267) or 520-884-7981. We may also be reached via e-mail at sales@midians.com or via fax at 520-884-0422.

Midian accepts Visa, MasterCard, American Express and Discover and wire transfers. Net 30 terms and COD Company Check terms are available upon approval.

Warranty

Midian offers one of the best warranties in the industry: 3 years on both parts and labor. This reflects our commitment to quality, reliability and customer satisfaction.

Customized Products

With our in-house software, hardware and CAD capabilities, Midian Electronics is able to create custom hardware and software designs to meet our customers' unique applications and to continue to support them after the sale.

For More Information

This catalog is an overview of the products Midian manufactures. If you need further technical information on any of our products, we have manuals and specifications available for you. Please contact our sales staff or visit our website at www.midians.com for additional product and technical information.

Features, options, specifications and product availability in Midian's catalog, brochures, manuals and website are subject to change without notice.
